SAE08 BIDIRECTIONAL ADJUSTABLE FLOW CONTROL VALVE

Main features

Max pressure	300 bar
Weight	0.08 Kg
Max flow	15 l/min
Tightening torque	25 Nm
Fluid temperature	-30°C ÷ +80°C
Filtration	ISO 4406
Cavity	SAE08-2

Spare part code

CSB — **Flow control valve**

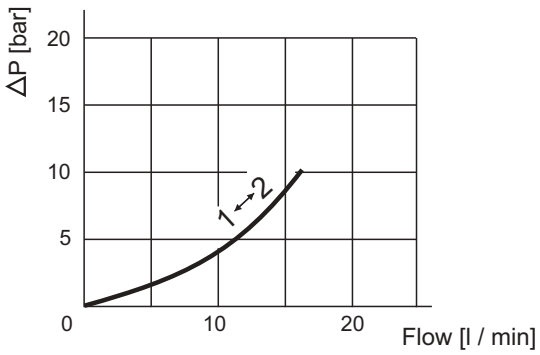

04 — **Nominal size:**
04 = SAE08

C — **Adjustment:**
C = screw (std)
V = handwheel

Assembly code

S

Pressure drop diagram

Note: Values measured on valve alone (no cavity) with an oil viscosity of 46 cSt at 50 °C. Pressure drop may change depending on fluid viscosity and temperature
